

Built for construction. Backed by data.

Fusable delivers the intelligence construction professionals need to make smart, data-backed decisions across the equipment lifecycle.

From Bid to Breakdown, Smarter Decisions Start with Better Data

Whether you're pricing a job, appraising a trade-in, or evaluating a contractor's fleet risk, Fusable equips you with the tools to act decisively.

Rich, Reliable Data

UCC Filings, FMCSA & DOT Records, OEM Specs & Dealer Feeds, Auction & Market Listings

Proven Tools, Built for Construction

EquipmentWatch, EDA, Iron Solutions

The Result

Unmatched visibility into equipment and activity that drives the construction economy.

Ways Fusable Benefits You

Contractors & Fleet Owners

Know when to buy, rent, or sell based on market values and bid smarter with true cost recovery rates.

Dealers & Distributors

Price inventory right to move it faster and reach real buyers using verified lead data.

Lenders & Finance Professionals

Speed up underwriting and reduce loan risk with verified equipment and buyer history and automated VIN & value checks.

Insurers & Brokers

Quote confidently with safety and compliance data and improve submissions and reduce loss ratios with cleaner insights.

Fusable solves the problems construction managers face

Inaccurate Reimbursement Costs You Thousands

If you can't justify equipment charges, you risk losing money. EquipmentWatch's Cost Recovery tool uses Rental Rate Blue Book data to help contractors recover costs with rates accepted by DOTs, auditors, and agencies.

Bidding Blind Leads to Lost Jobs

Without reliable cost benchmarks, contractors either underbid and lose money—or overbid and lose the project. EquipmentWatch's cost recovery tools help contractors price jobs with confidence.

Unknown Equipment Values Lead to Bad Deals

Without accurate FMV and FLV, it's easy to overpay or undervalue trade-ins. EquipmentWatch provides current, market-reflective values to help you buy, sell, or hold machines at the right time and price.

Rental vs. Ownership Decisions Are Often a Gamble

Many contractors rent without knowing if it's truly cost-effective. With EquipmentWatch's Retail Rental Rate tool and lifecycle cost benchmarks, you can compare options and protect profitability.
