

## Stronger data. Smarter fleet decisions.

Equipment values fluctuate. Safety records bury themselves in public databases. Cold calls go unanswered. Without easily accessible data, carriers, dealers, freight brokers, and insurers risk mispricing, missed sales, and unseen exposure.

### The Fusable Trucking Solution

Fusable is a one-stop shop for all the data you need in the commercial trucking industry. Whether you're valuing a sleeper cab, spotting new sales opportunities, or assessing a carrier's safety profile, Fusable equips you with the tools to act quickly and decisively.

#### Rich, Reliable Data

Cleaned data from USDOT, FMCSA, UCC, and Dun & Bradstreet®, VIN decoding and year/model verification

#### Proven Tools, Built for Trucking

RigDig, CAB, Price Digests

### The Result

Trusted data that fuels smarter deals, faster approvals, and reduced risk.

### Ways Fusable Can Help

#### Motor Carriers and Fleet Owners

Manage your fleet with verified histories, safety insights, and accurate valuations.

#### Equipment and Aftermarket Dealers

Move more inventory with precise pricing, qualified leads, and market intelligence.

#### Lenders and Finance Professionals

Approve loans faster with trusted valuations and reliable risk data.

#### Insurance Professionals

Underwrite with certainty using verified equipment details and comprehensive risk profiles.

# Fusable solves the problems trucking professionals face

## Poor Valuations Can Sabotage Deals

Over-paying for tractor-trailers or undervaluing trade-ins can wipe out margin. Price Digests delivers VIN-verified fair-market and liquidation values, helping carriers, dealers, and lenders negotiate with confidence.

---

## Chameleon Carriers Hide Loss Potential

Re-incarnated fleets can mask crash histories and spike claim severity. CAB's Chameleon Detection flags hidden affiliations before you bind coverage or tender freight.

---

## Cold Calling Wastes a Lot of Time

Reaching fleets that aren't buying wastes time. RigDig pinpoints carriers expanding their equipment by class, region, and brand, then gives you verified contacts, so dealers call high-intent buyers first.

---

## Poor Risk Evaluation Leads to Missed Opportunities

CAB's Agent Advantage® pre-underwrites prospects using real-time safety scores, violations, and risk flags, helping brokers match fleets to the right markets faster—boosting hit ratios and speeding time to bind.

---

## Incomplete Truck Valuations Expose You to Risk

A cab-and-chassis gains 20–80% value after body install, but VIN data misses it—risking premium leakage. Price Digests TruckBody IQ® predicts final configuration and Original Cost New, helping you price coverage accurately.
