

Unmatched equipment coverage.

Price Digests is the industry's leading source for equipment valuation, VIN decoding, and critical specs, such as GVW and MSRP. For more than 100 years, Price Digests has helped insurers, dealers, and finance professionals make smarter decisions by providing unmatched accuracy in equipment values and VIN decoding across industries such as commercial auto, personal auto, boats & marine, powersport, and more.

What does Price Digests offer?

Insurance Professionals

Get access to millions of data points for VIN prefill, vehicle values, and specifications. By using our online platform or integrating our data directly into your Policy Administration System (PAS), you can generate accurate policies more quickly, reducing time to bind and claim cycle time.

Dealers

Whether you need to value a used vehicle, find the specs and MSRP of a long-haul truck, or learn more about a boat's ownership history, Price Digests gives you the data you need to accurately value a vehicle or piece of equipment and quickly list for sale.

Finance Professionals

Whether you're completing a collateral valuation or auditing a portfolio, our solutions offer detailed controls and VIN decoding capabilities to get the job done accurately. Streamline your workflows and generate precise values based on asset options, mileage, and utilization.

Values

Since 1912, Price Digests is the leading valuation tool for these asset types:

- Truck
- Auto
- Marine
- Powersport
- Grounds Maintenance
- RV

VIN Decoding

Industry-leading VIN decoding for commercial truck and auto. Data includes:

- Truck
- Auto
- Powersport

Specs

Critical specs, such as GVW and MSRP, are available. Data available for these asset types:

- Truck
- Auto
- Marine
- Powersport
- Grounds Maintenance
- RV

Delivery Options

Price Digests delivers its data through various delivery methods, letting you choose what fits best for your business and workflow. Those data delivery methods include:

API

Get up-to-date data and intelligence through Price Digests' secure RESTful JSON API on AWS.

Database

Take full control of commercial vehicle data with Price Digests' file delivery and scheduled imports.

Batch processing

Easily decode thousands of VINs at once—batch processing handles bulk data without API setup.

Web-Based Platform

Get top data solutions through lookups or web platform subscriptions.

Key features & tools

 **Truck Blue Book**
Values and specs for medium and heavy-duty trucks.

 **Auto Red Book**
Offers comprehensive, VIN-driven specification and market valuations for passenger and low-speed vehicles.

 **ABOS Marine Blue Book**
1976 to current year models of inboard, stern drive, outboard powered boats, sailboats, pontoon boats, houseboats, personal watercraft, outboard motors, and boat trailers.

 **Powersport Blue Book**
Values and specs for a full range of powersport vehicles including motorcycles, scooters, ATVs, utility vehicles, snowmobiles, and small utility trailers.

 **Commercial Trailer**
Commercial trailer values and spec data.

 **RV Blue Book**
Provides values and specs data for motorhomes, travel and fifth wheel trailers, folding camping trailers, and truck campers.

 **Ground Maintenance Blue Book**
Subscription includes mowers, snow throwers, rotary tillers, trimmers, chippers and blowers, and chain saws; rich specs, valuations, and identification for most major equipment model years from 1985 to present.

 **Single Value Lookup**
A valuation and verification of just one vehicle, boat, or piece of equipment

TruckBody IQ[®]

An advanced API tool that enables insurance professionals to capture the full value of a completed commercial truck cab, chassis, and body by going beyond traditional VIN decoding. This helps ensure more accurate valuations, reducing the risk of underinsurance and premium leakage.
