

Seamless integration. Enriched results.

Key Features

Streamlined Tracking

Track accounts using USDOT, Docket #, or RigDig RRID #. Query to receive company info, fleet equipment intelligence, & more.

Reliable Data Sources

Gain access to accurate and daily updated information from official sources such as the FMCSA & SAFER systems.

Batch Processing

Look up multiple unique ID numbers simultaneously and compare them side by side for comprehensive analysis.

Flexibility

This API can be purchased as a standalone solution or in combination with a RigDig BI subscription and user licenses to the online interface.

Information Packages Available

1. Company Demographics
2. Company Equipment
3. Company Activity

Benefits

Enhanced Client Insights

Obtain detailed company demographics and fleet intelligence, enabling targeted and effective sales strategies.

Efficient Account Management

Streamline your workflow by integrating reliable data directly into your existing systems

Drive Sales

Augment trucking company demographics, fleet, and activity analytics to help craft targeted strategies
